LEARN FIRE SAFETY

Coloring Book

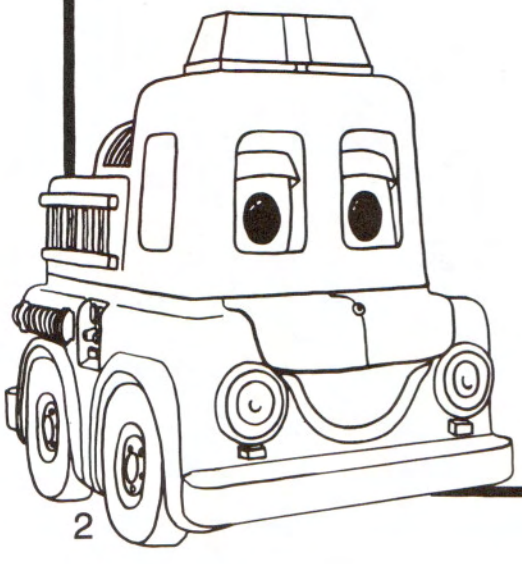
AN IMPORTANT MESSAGE TO PARENTS

Dear Parents,

You can help your children learn the important lessons of fire safety. Review with them the ideas presented in this coloring book. Teach your children what to do in an emergency and make sure they know how to summon help. Make it a family activity to do the Home Safety Checklist and correct any problems. Have regular fire drills.

The good habits you teach your children now can help them have a lifetime of fire safety.

Even one child burned is one child too many!



KNOW HOW TO CALL THE FIRE DEPARTMENT

The Fire Department's emergency number is _____.

Do you know the Fire Department's emergency number? When you call, speak clearly, and know your address.

DON'T PLAY WITH MATCHES

Never play with matches.
Matches and lighters are tools not toys.
They are only for grown-ups to use.

IF YOUR CLOTHES CATCH ON FIRE

STOP!

DROP!

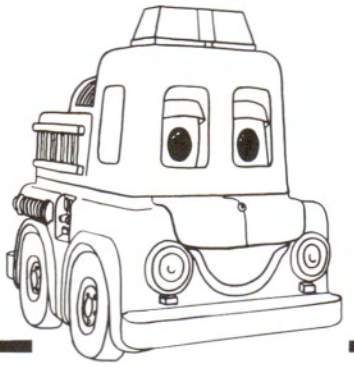
ROLL!

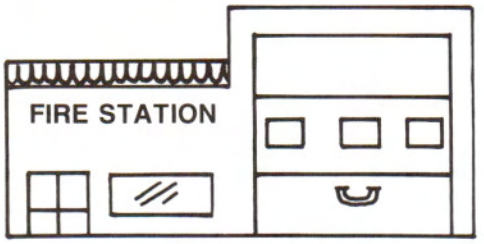
If your clothes catch on fire. . .
STOP, DROP, and ROLL the flames out.

SMOKE DETECTORS SAVE LIVES

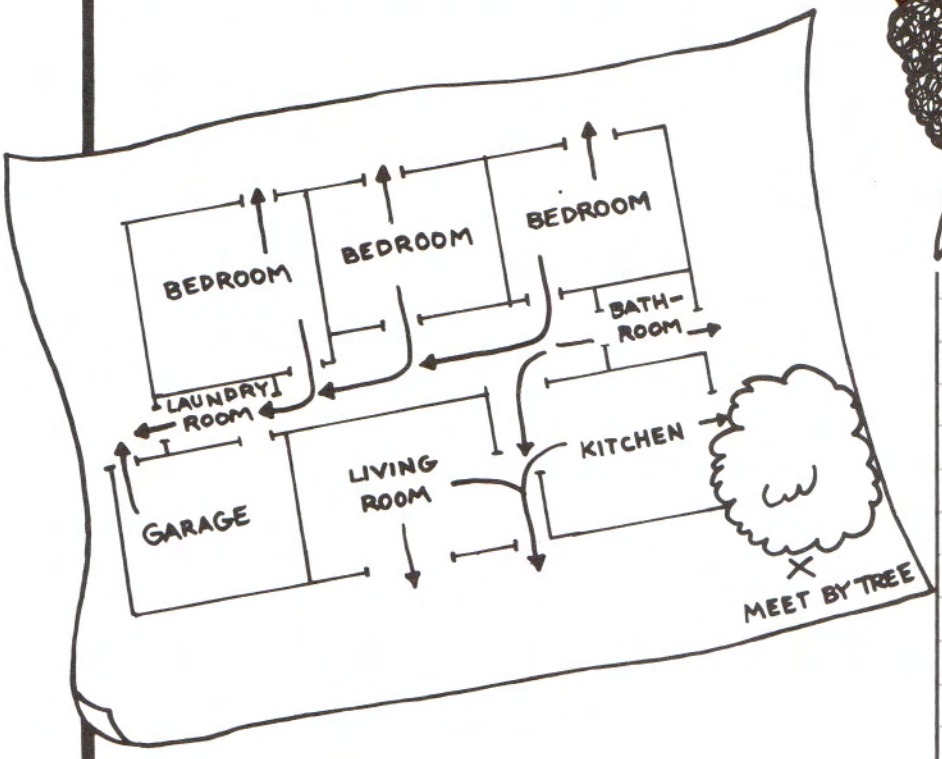
Do you have smoke detectors in your home? Have a grown-up check them once a month to make sure they work.

Help Freddie find the fire.

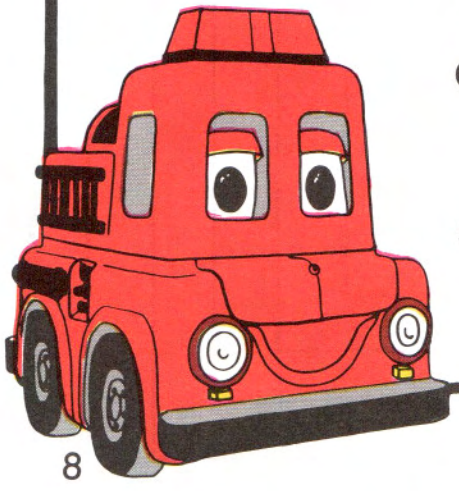




MAKE A FIRE ESCAPE PLAN

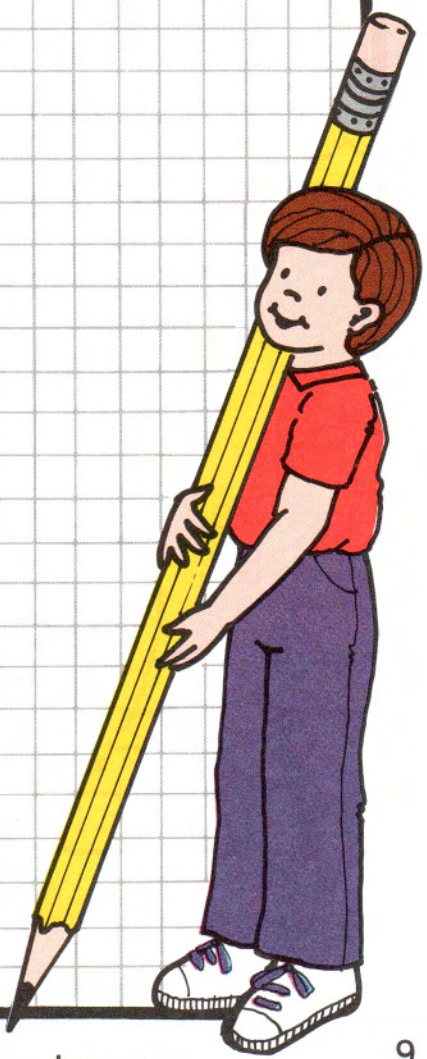


Draw the rooms of your home. Show all of the ways out in case of fire. Have a grown-up help you. Mark where smoke detectors are. Is there one close to every sleeping area?



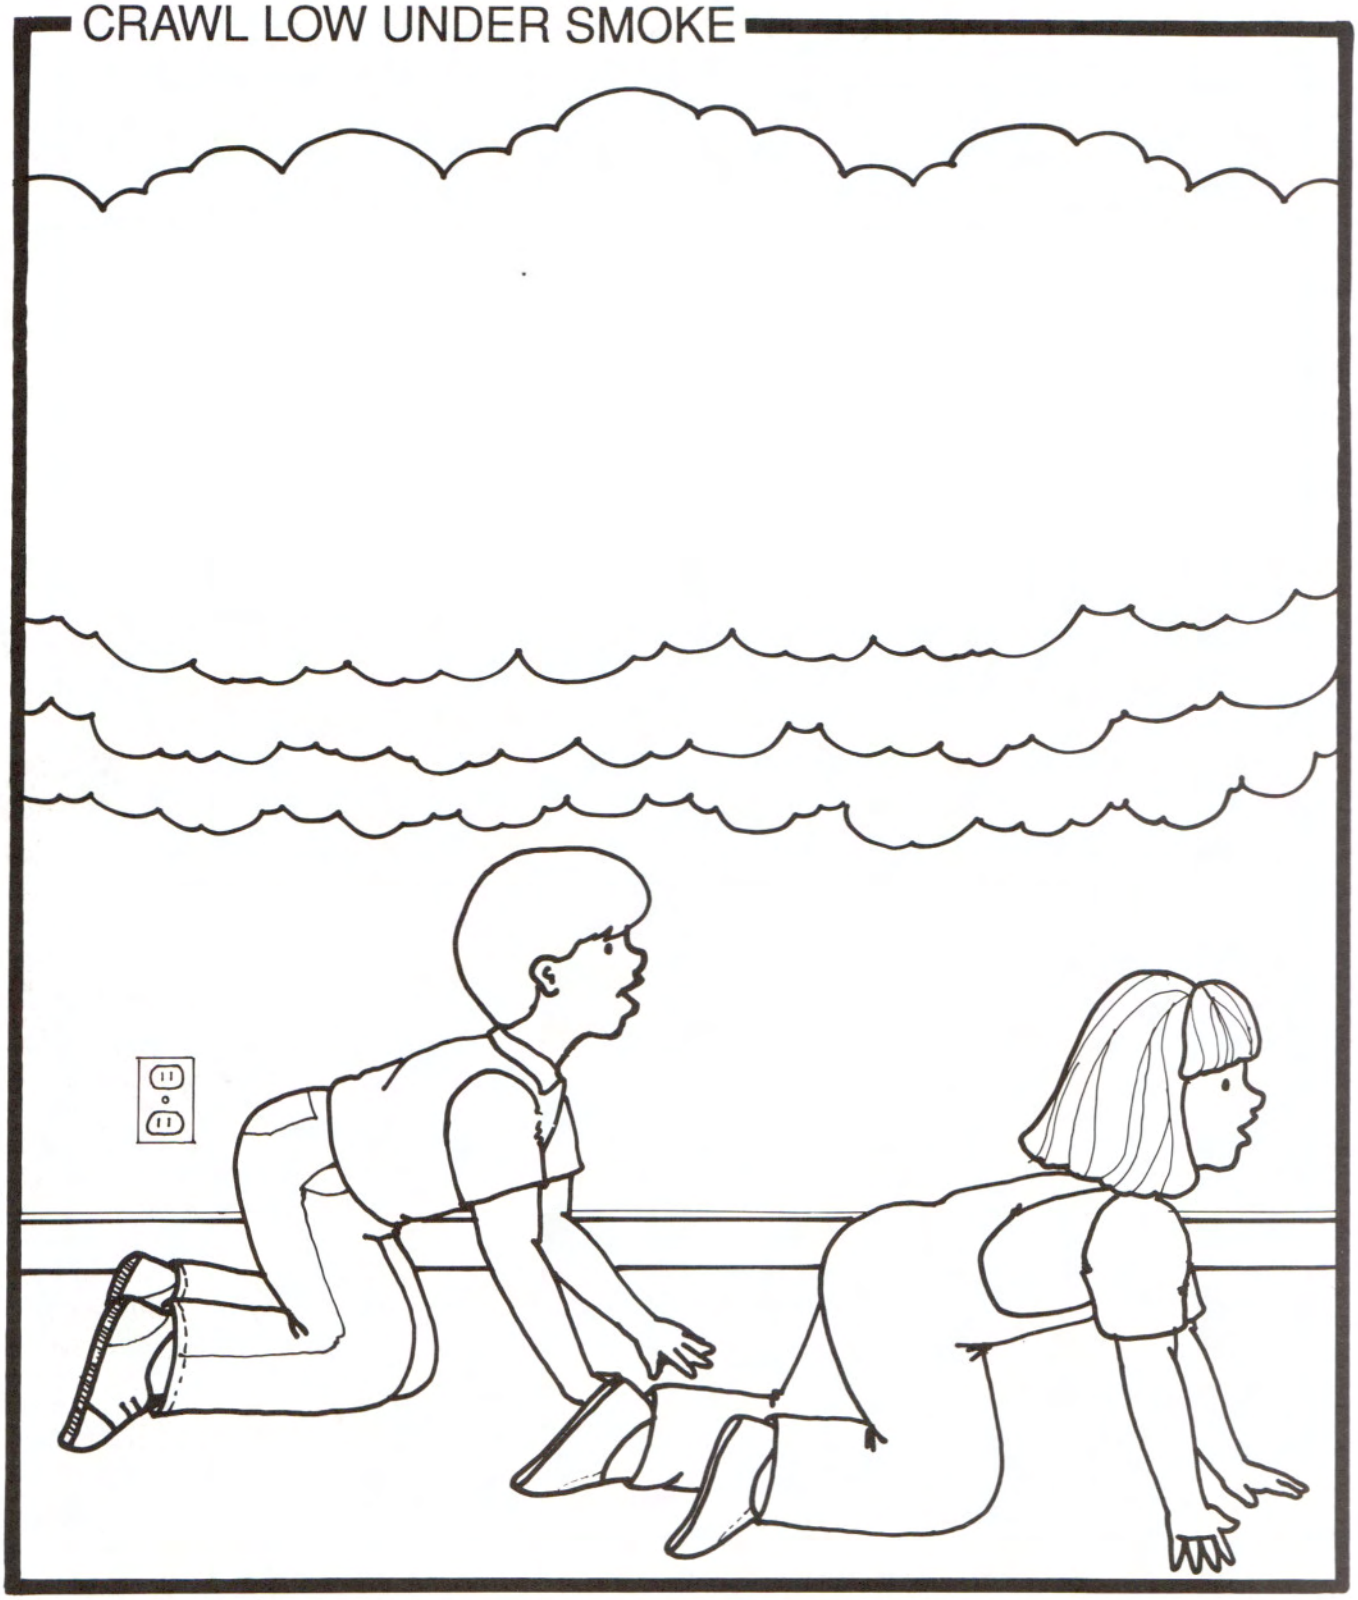
Make a fire escape plan.
Have at least two ways out of every room.
Have a safe meeting place for everyone to go to.

PRACTICE BY HAVING HOME FIRE DRILLS



Plan to call the Fire Department from a neighbors house. Remember, never go back into the house for toys or pets. Practice your plan so you will know what to do if there is a real fire.

CRAWL LOW UNDER SMOKE

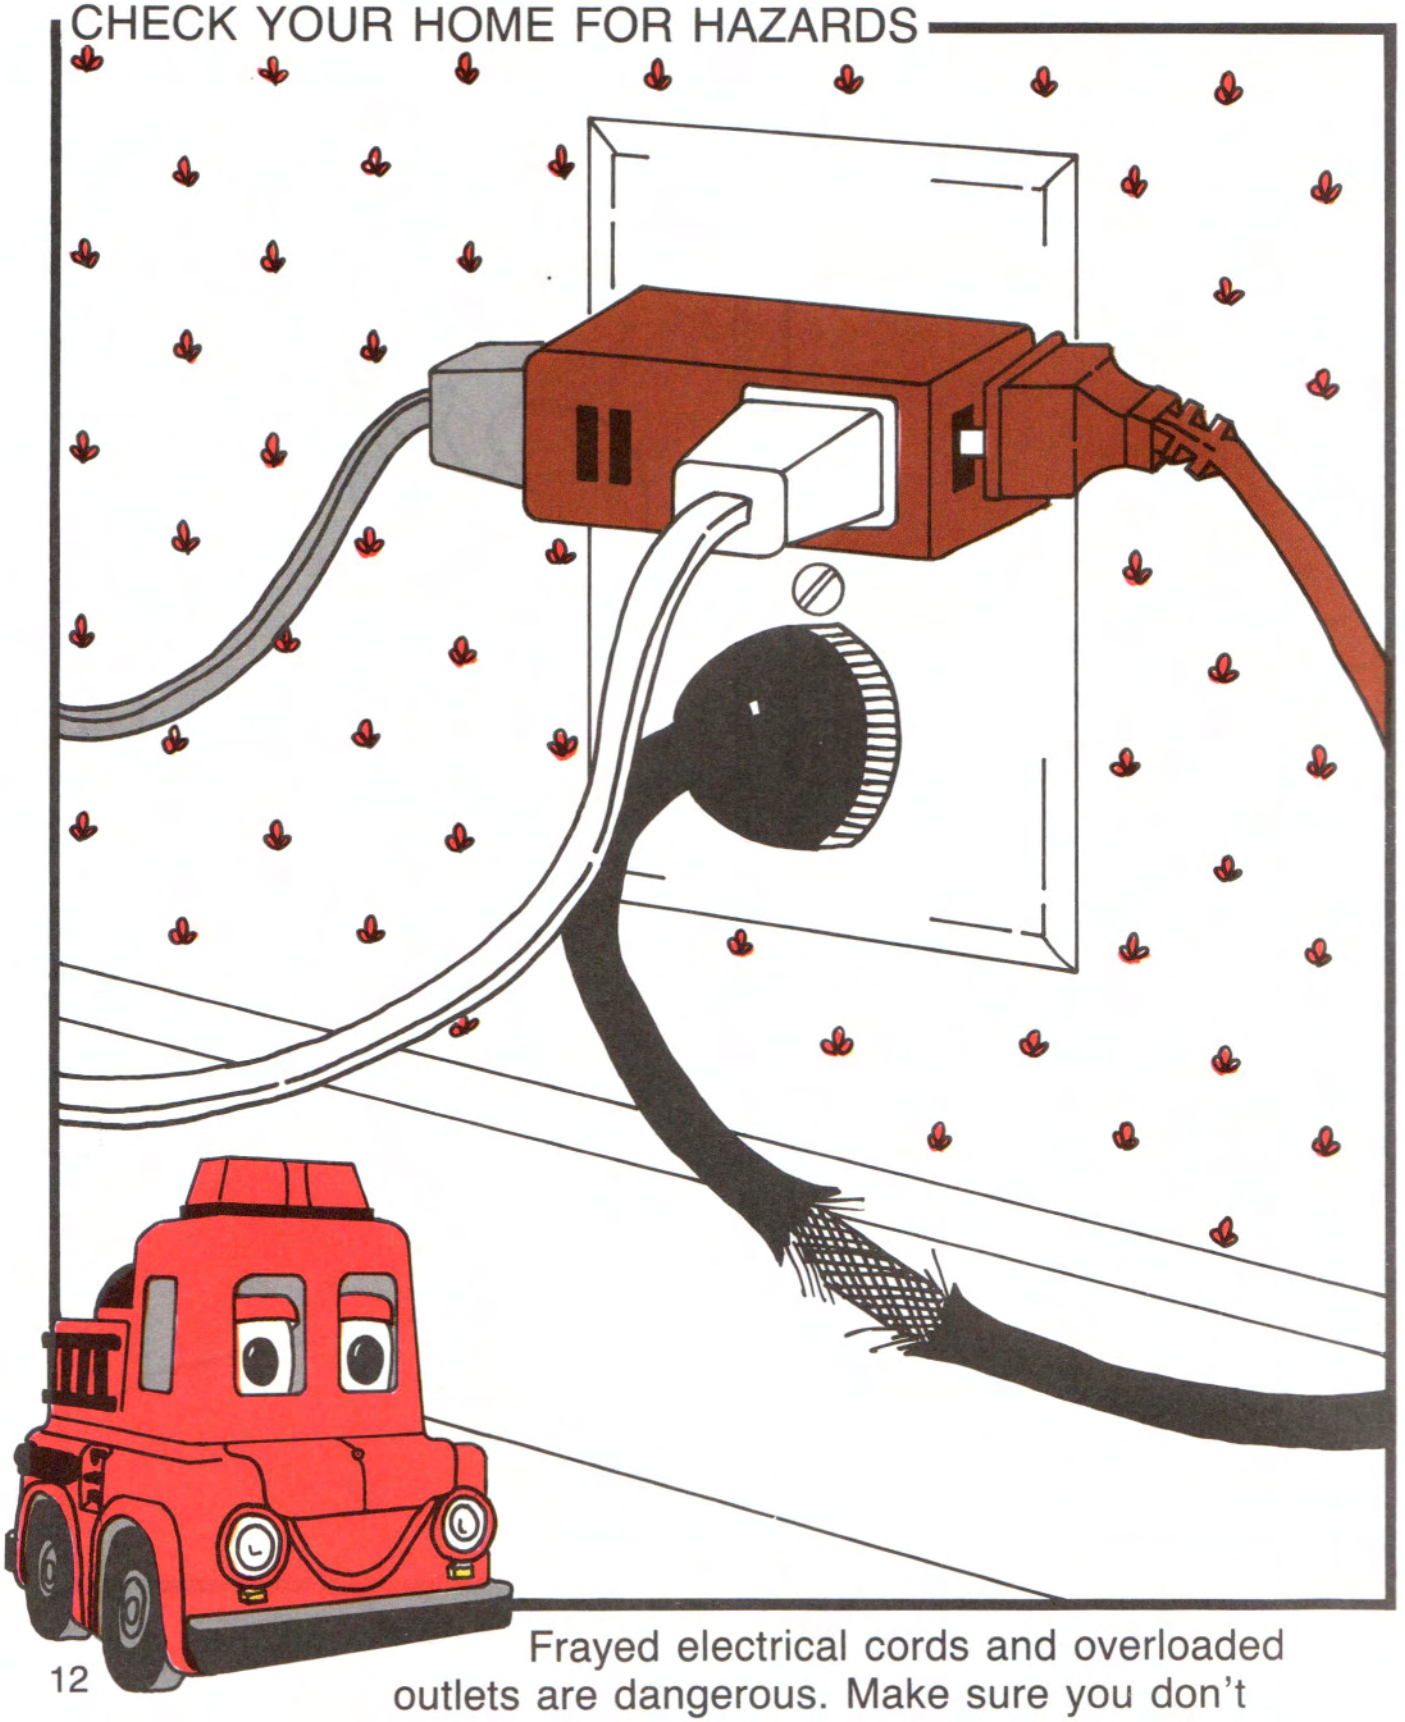


If there is smoke, crawl low.
The air near the floor is better.

CHECK BEFORE YOU OPEN A DOOR

Before you open a door, feel for heat.
There could be fire on the other side.
If the door is warm, find another way out.

CHECK YOUR HOME FOR HAZARDS



Frayed electrical cords and overloaded outlets are dangerous. Make sure you don't have these fire hazards in your home.

Put cool water on a burn. Do it right away and if possible have someone older help you.
